About this Workshop

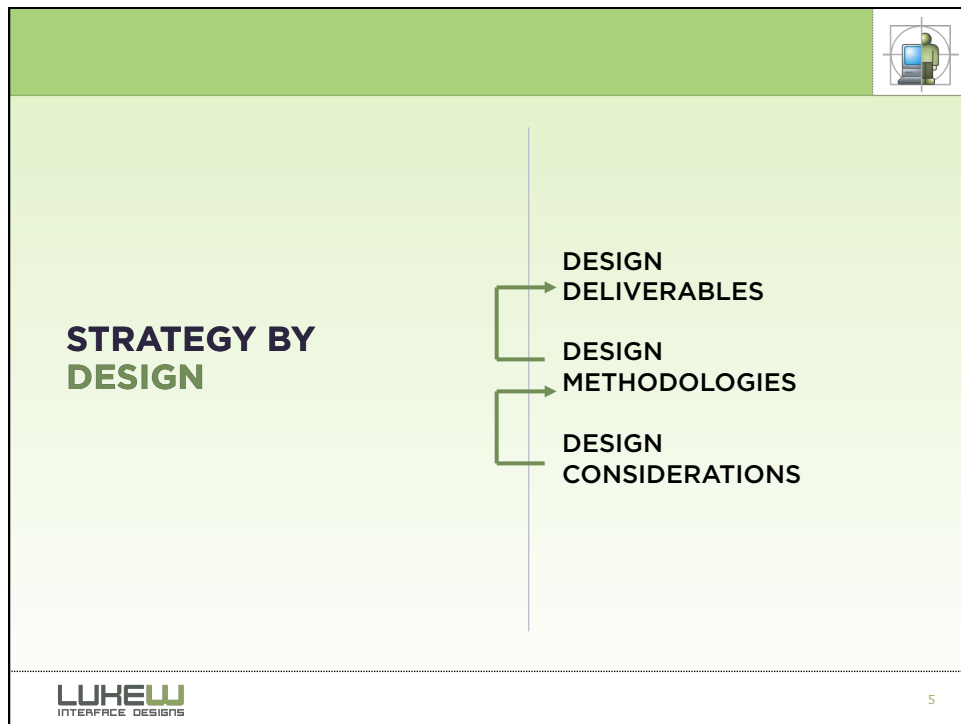

- **Influencing Strategy by Design**
 - Get a seat at the table & help your organization make better decisions...
 - By thinking and acting like a designer!
- **Format:**
 - Presentation: showcase principles & examples
 - Exercise: put the principles to use
- **Experience**
 - Internal Board2Board Training at Yahoo!
 - Public course at Involution Master Academy
 - Put into practice in numerous companies

Participants

- **What is your role in your organization?**
 - Design
 - Research
 - Engineering
 - Product Management
 - Marketing
 - Business Development
 - Etc.
- **What one question do you most wanted answered?**

The slide has a light green background with a darker green header and footer. In the top right corner, there is a small icon of a person at a computer. The main content area contains the following text:

DESIGN DELIVERABLES

- Experiences, interactions & understanding between people & information
- Useful, usable, and desirable

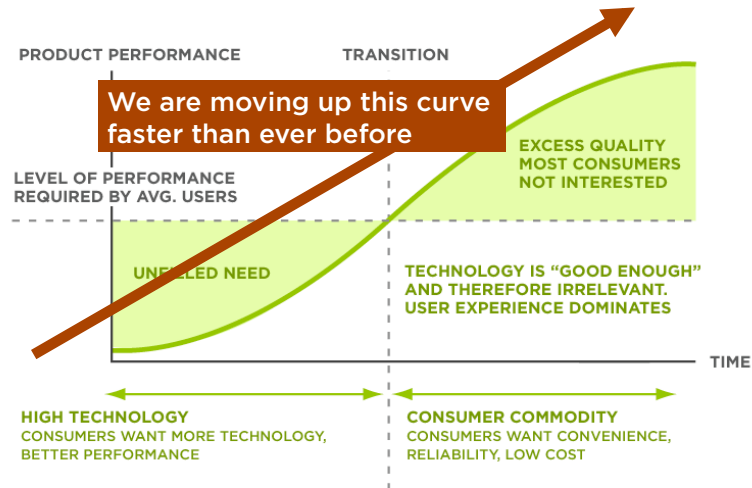

Why it matters...

- Markets mature faster: adoption, revenue, customers, competition
- Provides value beyond functionality

IPHONE, APPLE COMPUTER INC.

DESIGN BECOMES A KEY DIFFERENTIATOR SOONER

PRODUCT DESIGN, THAT IS

DESIGN METHODOLOGIES

- Problem solving methodology rooted in real world, articulates end state, and favors building to think
- Observe, Envision, Iterate

Why it matters...

- We are in a continuous state of flux
- Helps businesses adapt and stay relevant

**A CHANGE IN
TECHNOLOGY**

**HAS A BIGGER IMPACT
ON BUSINESS &
PEOPLE**

& VICE VERSA

01 Our vision

"We believe great innovators and leaders need to be great design thinkers."

d.SCHOOL, STANFORD

**DESIGN ENABLES
COMPANIES TO
ADAPT**

**DESIGN THINKING,
THAT IS**

DESIGN CONSIDERATIONS

- Foundations of effective communication
- Pattern recognition, story-telling, visual communication, empathy

Why they matter...

- There's increased complexity
 - Information overload
 - Interconnected product ecosystems
 - Globalization
- Design principles evoke meaning

EVERY DAY...

DESIGN CONSIDERATIONS

PRINCIPLES, SKILLS,
THE UNIQUE PERSPECTIVE OF DESIGN

Web Application Data Sources

- **Usability Testing**

- Errors, issues, assists, completion rates, time spent per task, satisfaction scores

- **Customer Support**

- Top problems, number of incidents

- **Best Practices**

- Common solutions, unique approaches

- **Site Tracking**

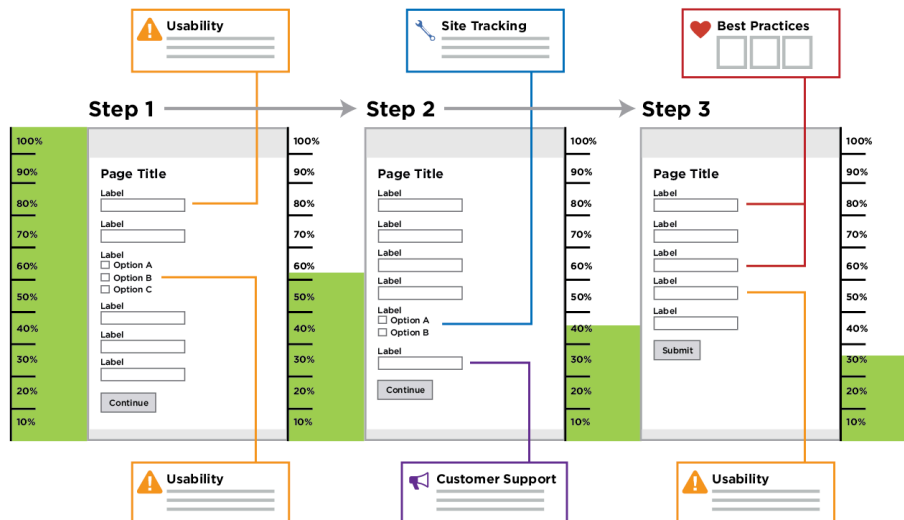

- Completion rates, entry points, exit points, elements utilized, data entered

- **Eye Tracking**

- Number of eye fixations, length of fixations, heat maps, scan paths

BUSINESS OF DESIGN, EBAY INC. APRIL 2004

Design Considerations

- **Pattern recognition:**
 - Uncover the trends
- **Story-telling:**
 - Focus on the big idea
 - Stories: impactful, memorable, clear
- **Visual Communication:**
 - Visual hierarchy = prioritized narrative
 - Illuminate relationships
- **Empathy:**
 - Story presented in context
 - What customers see
- **Enables**
 - Faster consensus
 - Better decisions

Raven's Progressive Matrices

- Used to measure “fluid” or general intelligence (g)
- Do away with words and numbers
- All the information is presented in visual language
- Succeed by detecting patterns in each object, by separating the relevant information from the irrelevant

Designers utilize pattern recognition

- How we make sense of what we see
 - Recognizing similarities & differences
 - This allows us to group information
 - And give it meaning
- Relationships
 - Between individual elements
 - To the whole (story)

Proximity

Similarity

Continuance

Principles tell us how & why we group visual information

Color

Texture

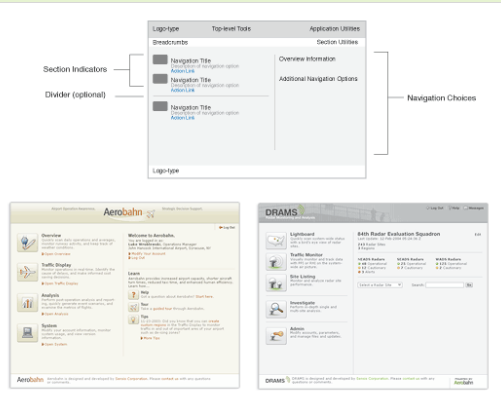

Direction

Size

Creating relationships requires an understanding of what makes things different

Designers utilize pattern recognition

Market Landscape (Online Video)

- Apple/NBS/CBS/USA TV show downloads
- MovieLink/Fox movie downloads
- AOL/MTV Networks video search
- AOL/In2TV
- Sony TV downloads in Japan
- Blinkxx Smithsonian & University archives
- Yahoo! WOW House (original programming)
- HBO shows on Vodafone Live
- Video iPod: Public Domain movies, art shows, Veoh, Rush Limbaugh, PodDater
- Sony PSP: Sony Wifi TV (Japan), DVD conversion (PQVideo.com)
- Tivo: Transfer to Video iPod & PSP (TV Harmony)
- AOL In2TV (Web TV channels)
- Tioti ("global TV guide, Torrent tracking, your favourites and recommendations plus an innovative social layer to hang it off")
- wwwiTV (Live TV Webcast guides)
- PodGuide.TV (guide to Video iPod content)
- Schedule Tivo on Yahoo!
- Poddater.com (video iPod dating)
- View Video Blog content on Tivo (Rocketbloom)
- Yahoo! Living Room Video Search (Meedio)
- Mac Mini & Front Row (Apple)
- Windows Media Center
- AOL HiQ (DVD quality)

Video Market Landscape

- Increasing amounts of video content being made accessible online
- Programming Guides of video content in early stages
- Viewing experience unsatisfactory across most devices

Story Leads to Discussions

- Which area do we tackle?
- Can we own the whole spectrum?
- What kinds of partnerships do we need?
- Which competitors should we be concerned about?

DESIGN CONSIDERATIONS

PATTERN RECOGNITION
STORY-TELLING
VISUAL COMMUNICATION
EMPATHY

Visual Communication

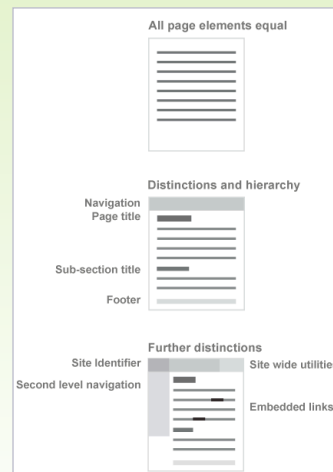

- **Importance of presentation**
 - Front door to content & actions
- **Perception is based on visual relationships**
- **Manipulating visual relationships creates visual hierarchy**
- **Visual hierarchy tells a story**
- **Personality draws the right audience to the story**

Building a Hierarchy

- **Involves use of visual relationships to add more or less visual weight to elements**
- **Distribution of visual weight**
 - Visually dominant images get noticed most
 - Focal point, center of interest
- **Distinct visual weight guides you through the narrative**
 - Essential to keep it balanced

No Clear Hierarchy

Effective Hierarchy

Time	Activities and Tasker Event
11:03 - 11:04	First service call from customer 1. Offered to open the mail and bring the coffee to his desk.
11:05 - 11:06	Entered trade in the system (see Additional Notes) to increase a certain no phone call with customers and trader and back office. During this time, the trader finished her calculation on the P&L for the EUR/GBP trade.
11:05	Trick ordered a buffet lunch from Styles Baroque that was being sent by a FX trader.
11:05	FX trader will ring out their proprietary product indicating client is beginning to trade. Bell clearly caught the attention of those.
11:02	Second FX For Sell was, indicating that request for quote has been opened. There was on the phone with another client, whom she asked to call back. She got a quote from her customer the amount in USD/GBP and the 200000 and with 6 seconds left on Chase Service. Traded began entering the trade. Time expired before she was finished to enter and nothing was done for the trade. There was the trader looking was done and indicated that the case was by colleagues.
11:09	While on phone with a customer, I have heard the first bell went on FX line, indicating to a customer is preparing to trade and asked the phone customer if she could call him back. Second bell rang and the 3 seconds on the trading indicator, showed that the trader wanted to buy 2 million GBP. With 12 seconds to go called the trader on the market for a quote on 2 Cents and received 1.5955. There were the trader and the page indicated it was waiting for when to complete. She told the trader they were done at that time.
11:09	Trick a phone call from a client requesting a quote.
11:10	Lost another call from Maxine and from the trading. Dollars. She began entering the quote before she had an answer from the trader. I have away. Told the trader nothing was done with them.
11:11	Went back to the A screen on the system to read the trade results and enter into BEZ/SPS.
11:12	Got a bell from FX line and a request for quote for a million of New Zealand Dollar (NZD). The trader indicated that she 3 seconds to complete. Asked the trader for a quote on half a cent and entered the quote with 3 seconds to go. Once done. Told the trader nothing was done with them.
11:15	Got a bell from FX line and a request for 1.5 million Australian Dollars with a quote service period of 30 seconds. Got quote from trader for 1.5 minutes, entered

STORY-TELLING

EMPATHY

The diagram illustrates the flow of digital assets. At the bottom left, a large cylinder labeled "Asset" represents the source. A green arrow points upwards from the cylinder to a green document icon labeled "Asset" in the top left. A yellow arrow points from the cylinder to a yellow document icon labeled "Asset" in the top right. A blue arrow points from the cylinder to a blue document icon labeled "Asset" in the middle right. A red arrow points from the cylinder to a red document icon labeled "Asset" in the middle left. A central figure of a person at a computer is surrounded by these four document icons, indicating that assets are distributed to various applications or users.
